American Journal of Physiology:
Heart and Circulatory Physiology

No. 1. JANUARY 1982

INVITED REVIEW

Sense and nonsense about the Fenn effect
J. A. Rall H1

Effects of glucagon on cardiac chronotropic response to vagal stimulation in the dog
S. L. Stuesse, M. N. Levy, and H. Zieske H7

Comparative response of the developing canine myocardium to inotropic agents
I.-S. Park, L. H. Michael, and D. J. Driscoll H13

Interaction of verapamil with human platelet α-adrenergic receptors
E. S. Barnathan, V. P. Addonizio, and S. J. Shattil H19

Relationships between adenosine and coronary resistance in conscious exercising dogs
J. E. McKenzie, R. P. Steffen, and F. J. Haddy H24

Adaptive changes of pyruvate oxidation in perfused heart during adrenergic stimulation
R. Bünger, B. Permanetter, O. Sommer, and S. Yaffe H30

Acute interaction of vasopressin and neurogenic mechanisms in DOC-salt hypertension
H. Matsuguchi and P. G. Schmid H37

Pressor response to vasopressin and impaired baroreflex function in DOC-salt hypertension
H. Matsuguchi and P. G. Schmid H44

Fetal intestinal oxygen consumption at various levels of oxygenation
D. I. Edelstone and I. R. Holzman H50

Blood flow and ultrastructure in ischemic myocardium of cats given dexamethasone
J. A. Spath, Jr., and R. J. Barsotti H55

Kinetics of positron emitters in vivo characterized with a beta probe
R. A. Lerch, H. D. Ambos, S. R. Bergmann, B. E. Sobel, and M. M. Ter-Pogossian H62

Direct measurement of sarcomere length from isolated cardiac cells
K. P. Roos, A. J. Brady, and S. T. Tan H68

Effects of inorganic phosphate on ion exchange, energy state, and contraction in mammalian heart
J. E. Ponce-Hornos and G. A. Langer H79

Effect of increased magnesium on recovery from ischemia in rat and rabbit hearts
M. M. Bersohn, K. I. Shine, and W. D. Sterman H89

Importance of injection site for coronary blood flow determinations by microspheres in rats
P. Wicker and R. C. Tarazi H94

Functional characterization of atrial pacemaker activity
W. C. Randall, L. E. Rinkema, S. B. Jones, J. F. Moran, and G. Brynjolfsson H98

Acute inhibition of renin release during left circumflex coronary occlusion in dogs
A. Livnat and J. E. Zehr H107

Left ventricular performance in conscious thyrotoxic calves
S. Goldman, M. Olajos, H. Friedman, W. R. Roeske, and E. Morkin H113

SPECIAL COMMUNICATIONS

Construction and characterization of branched elastic transparent vessel models
J. Melbin, R. Gopalakrishnan, R. Riffle, and A. Noordergraaf H122

Noninvasive measurement of systolic and diastolic blood pressure in swine
B. C. Hodgkin, D. E. Burkett, and E. B. Smith H127

LETTERS TO THE EDITOR

When is the left ventricular pressure fall exponential?
G. Martín, J. Cosín, J. V. Gimeno, and A. Ramirez; B. H. Lorell, J. B. Newell, I. Palacios, and W. M. Daggett H131

No. 2. FEBRUARY 1982

Capillary density in rat myocardium during timed plasma staining
F. Vetterlein, H. dal Ri, and G. Schmidt H133

Kinins in regulation of uteroplacental blood flow in the pregnant rabbit
M. Seino, O. A. Carretero, R. Albertini, and A. G. Scicli H142

Responses to activation of cardiac sympathetic afferents with epicardial bradykinin
R. B. Felder and M. D. Thames H148

Does normal pulmonary impedance constitute the optimum load for the right ventricle?
H. Piene and T. Sund H154

Effect of tilting on adipose tissue vascular resistance and sympathetic activity in humans
B. Linde and P. Hjemdahl H161

Sinusal afferents supplying superior cervical ganglion
R. S. Tuttle and M. McCleary H168

Left ventricular performance in endotoxin shock in dogs
W. G. Guntheroth, J. P. Jacky, I. Kawabori, J. G. Stevenson, and A. H. Moreno H172

β-Adrenergic relaxation and cAMP kinase activation in coronary arterial smooth muscle
P. J. Silver, C. Schmidt-Silver, and J. DiSalvo H177

Sympathetic transients caused by abrupt alterations of carotid baroreceptor activity in humans
B. G. Wallin and D. L. Eckberg H185

Ventricular function in norepinephrine-induced cardiomyopathic rabbits
J. C. Lee and S. E. Downing H191

Effects of blood volume changes on characteristic impedance of the pulmonary artery
J.-P. L. Dujardin, D. N. Stone, C. D. Forcino, L. T. Paul, and H. P. Pieper H197

Dissociation of Ca^{2+} accumulation from protein release in calcium paradox: effect of barium
W. G. Nayler and P. M. Grinwald H203

Capillary network geometry and red cell distribution in hamster cremaster muscle
B. Klitzman and P. C. Johnson H211

Influence of carotid sinus pressure on atrial receptors and renal blood flow
F. Karim, D. Mackay, and C. T. Kappagoda H220

Mass-balance approach for estimating transcapillary fluid and protein movement
J. J. Friedman, J. J. Szwed, and B. L. Johns H227

Regulation of norepinephrine levels in synaptic clefts of dog vascular tissue
D. K. Rorie and G. M. Tyce H233

Effect of acute regional ischemia on pressure in the subepicardium and subendocardium
H. N. Sabbah and P. D. Stein H240

Comparison of mechanical and chemical properties of extra- and intralobar canine pulmonary arteries
R. H. Cox H245

Mitochondrial cholesterol content and membrane properties in porcine myocardial ischemia
W. Rouslin, J. MacGee, S. Gupte, A. Wesselman, and D. E. Epps H254

Isoproterenol-induced myocardial dysfunction in dogs with coronary stenosis
K. P. Gallagher, T. Kumada, A. Battler, W. S. Kemper, and J. Ross, Jr. H260

Fluid exchange across single capillaries in rat intestinal muscle
R. W. Gore H268

SPECIAL COMMUNICATIONS

Multiplexer displays two pressure signals on single oscilloscope channel
R. L. Battagin and S. A. Glantz H288

A dual-channel signal averager for spontaneous signals
A. Fabiato and A. O. Wist H291

A model for studying chronic reduction in uterine blood flow in pregnant sheep
K. E. Clark, M. Durnwald, and J. E. Austin H297

No. 3. MARCH 1982

Loading determinants of relaxation in cat papillary muscle
M. A. Goethals, P. R. Housmans, and D. L. Brutsaert H303

Decrease in myocardial oxygen extraction with aortic constriction in the dog
D. Saito, S. Kusachi, O. Nishiyama, K. Yasuhara, S. Haraoka, H. Nagashima, and R. A. Olsson H310

Vasopressor and depressor actions of angiotensin in the anesthetized fowl
H. Nishimura, Y. Nakamura, R. P. Sumner, and M. C. Khosla H314

Effects of diltiazem on smooth muscle and neuromuscular junction in the mesenteric artery
H. Suzuki, T. Itoh, and H. Kuriyama H325

Pulmonary and coronary endothelial effects of acute myocardial ischemia in dogs
M. H. Gee, J. T. Flynn, and J. A. Spath, Jr. H337

Inhibition of theophylline of the early component of canine ventricular contraction
M. Endoh, T. Iijima, and S. Motomura H349

Alterations in mechanical properties of rat papillary muscle during maturation
J. M. Capasso, R. M. Remily, and E. H. Sonnenblick H359

Quantitation of regional chondroosseous circulation in canine tibia and femur
J. E. Schnitzer, P. McKinstry, T. R. Light, and J. A. Ogden H365

Interstitial fluid dynamics in conscious renal hypertensive rats
N. C. Trippodo H376

Red blood cell and plasma distribution in SHR cremaster muscle microvessels
C. H. Baker, F. R. Wilmoth, E. T. Sutton, and K. Takach H381

Acute and chronic microsphere loss from canine left ventricular myocardium
P. M. Consigny, E. D. Verrier, B. D. Payne, G. Edelist, J. Jester, R. W. Baer, G. J. Vlahakes, and J. I. E. Hoffman H392

Myocardial responses to α-adrenoceptor stimulation with methoxamine hydrochloride in lambs
J. C. Lee, R. R. Fripp, and S. E. Downing H405

Sarcomere length control in striated muscle
R. van Heuningen, W. H. Rijnsburger, and H. E. D. J. ter Keurs H411

Relation of canine atrial activation sequence to anatomic landmarks
H. Hayashi, R. L. Lux, R. F. Wyatt, M. J. Burgess, and J. A. Abildskov H421

Placental transfer as a function of uterine blood flow
R. B. Wilkening, S. Anderson, L. Martensson, and G. Meschia H429

Mechanism of tissue Ca^{2+} gain during reoxygenation after hypoxia in rabbit myocardium
T. Nakanishi, K. Nishioka, and J. M. Jarmakani H437

Effects of antihistamines and indomethacin on hyperosmolar-induced vasodilation
M. R. Pinsky, P. L. Smith, E. R. Bleecker, and B. Bromberger-Barnea H450

Effects of fatty acid intermediates on Na^+-K^+-ATPase activity of cardiac sarcolemma
K. Owens, F. F. Kennett, and W. B. Weglicki H456

Effect of lung thromboxane generation on regional blood flow during sheep bypass
A. H. Schuette, P. C. Hüttemeier, W. D. Watkins, and W. M. Zapol H462

Modulation of rabbit carotid baroreflex during positive end-expiratory pressure
F. J. Sepe, M. R. Magnusson, and H. O. Stinnett H470

Changes in arterial wall properties during development and maintenance of renal hypertension
R. H. Cox H477

No. 4. APRIL 1982

Isolated working rat heart perfusion with perfluorochemical emulsion Fluosol-43
L. D. Segel and S. V. Rendig H485

Insulin reversal of diabetes-induced inhibition of vascular contractility in the rat
M. A. Pfaffman, C. R. Ball, A. Darby, and R. Hilman H490

Vasopressin in brain of spontaneously hypertensive rats
W. Rascher, R. E. Lang, T. Unger, D. Ganten, and F. Gross H496

Postnatal regulation of canine oxygen delivery: control of erythrocyte 2,3-DPG levels
P. A. Mueggler and J. A. Black H500

New method for measuring QRS duration using high-frequency electrocardiography
V. Bhargava and A. L. Goldberger H507

Colloid osmotic pressure changes in isolated isogravimetric cat hindlimb
P. D. Watson H512

Responses of aortic baroreceptors to changes of aortic blood flow and pressure in rat
J. D. Charlton and A. J. Baertschi H520

On-line cardiac mapping: an analog approach using video and multiplexing techniques
I. Parson, P. Mendler, and E. Downar H526

Dependence of $^{13}NH_3$ myocardial extraction and clearance on flow and metabolism
J. Krivokapich, S.-C. Huang, M. E. Phelps, N. S. MacDonald, and K. I. Shine H536

Effects of hemorrhage on umbilical venous return and oxygen delivery in fetal lambs
J. Itskovitz, B. W. Goetzman, and A. M. Rudolph H543

Dimensional analysis of right and left ventricles during positive-pressure ventilation in dogs
S. S. Cassidy, J. H. Mitchell, and R. L. Johnson, Jr. H549

Fibronectin deficiency and intestinal transvascular fluid balance during bacteremia
B. C. Dillon and T. M. Saba H557

Differential effects of histamine on protein permeability in dog lung and forelimb
M. B. Maron H565

Pneumotoxicity and thrombocytopenia after single injection of monocrotaline
K. S. Hilliker, T. G. Bell, and R. A. Roth H573

Lack of time-dependent augmentation of carotid sinus baroreflex system after vagotomy
H. Hosomi and K. Yokoyama H580

Characterization of carnitine transport in isolated perfused adult rat hearts
T. C. Vary and J. R. Neely H585

Evidence for a neurotransmitter role for epinephrine derived from the adrenal medulla
K. H. Berecek and M. J. Brody H593

Immunoreactive glandular kallikrein in rat plasma: a radioimmunoassay for its determination
S. F. Rabito, A. G. Scicli, V. Kher, and O. A. Carretero H602

Left ventricular dimensions and function during right ventricular pressure overload
F. R. Badke H611

Extracellular K^+ accumulation during myocardial ischemia in isolated rabbit heart
J. Weiss and K. I. Shine H619

Unsaturated fatty acids and cyclooxygenase inhibitors: effects on pial arterioles
W. I. Rosenblum H629

Diastolic myocardial stiffness in gradually developing left ventricular hypertrophy in dog
T. Serizawa, I. Mirsky, B. A. Carabello, and W. Grossman H633

Human sinus node responses to repetitive, ramped carotid baroreceptor stimuli
D. L. Eckberg and M. J. Eckberg H638

Effect of ADP-induced platelet aggregation on lung fluid balance in sheep
F. L. Minnear, D. G. Moon, J. E. Kaplan, and A. B. Malik H645

Hydrolysis of sarcolemma by lysosomal lipases and inhibition by chlorpromazine
J. K. Beckman, K. Owens, T. E. Knauer, and W. B. Weglicki H652

Fetal myocardial oxygen and carbohydrate consumption during acutely induced hypoxemia
D. J. Fisher, M. A. Heymann, and A. M. Rudolph H657

Determination of safety factor for defibrillator waveforms in cultured heart cells
J. L. Jones and R. E. Jones H662

Synthesis and use of radio colbaltic EDTA as an extracellular marker in rabbit heart
J. H. B. Bridge, M. M. Bersohn, F. Gonzalez, and J. B. Bassingthwaighte H671

α- and β-Adrenergic effects of epinephrine on ventricular pacemakers in dogs
A. J. Hordof, E. Rose, P. Danilo, Jr., and M. R. Rosen H677

Atropine does not attenuate cerebral vasodilatation during hypercapnia
D. W. Busija and D. D. Heistad H683

Adenosine and free-flow functional hyperemia in striated muscle
K. G. Proctor and B. R. Duling H688

An extracorporeal reservoir device for continuous monitoring of tissue volume change
H. I. Chen H698

Exchange of potassium and strontium in adult bone
B. Maltby, G. J. Lemon, J. B. Bassingthwaighte, and P. J. Kelly H705

SPECIAL COMMUNICATIONS

Rat gracilis muscle preparation for combined macro- and microvascular research
D. P. Swain and B. J. Lalone H713

RAPID COMMUNICATIONS

Hemodynamic studies in spontaneously hypertensive rats with congenital arteriovenous shunts
S. Sesoko, B. L. Pegram, I. Kuwajima, and E. D. Frohlich H722

ANNOUNCEMENTS H727

No. 5. MAY 1982

INVITED REVIEW

Phosphorus nuclear magnetic resonance spectroscopy of cardiac and skeletal muscles
J. S. Ingwall H729

Adverse effects of prostacyclin used to perfuse isolated lung lobes
M. M. Krausz, T. Utsunomiya, L. L. Levine, B. Dunham, D. Shepro, and H. B. Hechtman H745

Ion-selective electrode studies of cell Na components in vascular smooth muscle of WKY and SHR
S. M. Friedman, R. A. McIndoe, and G. Spieckermann H751

Calcium-dependent contractile activation of cerebral artery produced by quick stretch
K. Nakayama H760

Effect of pulsatile pressure and metabolic rate on intestinal autoregulation
A. P. Shepherd and G. L. Riedel H769

Favorable effects of therapy on cardiac performance in spontaneously hypertensive rats
J. M. Pfeffer, M. A. Pfeffer, P. Fletcher, M. C. Fishbein, and E. Braunwald H776

Na^+-induced intestinal interstitial hyperosmolality and vascular responses during absorptive hyperemia
H. G. Bohlen H785

Cardiovascular responses to unilateral and bilateral stimulation of rabbit aortic nerves
H. O. Stinnett, F. J. Sepe, and M. R. Magnusson H790

Effect of adenosine on calcium uptake by intact and cultured vascular smooth muscle
R. A. Fenton, S. P. Bruttig, R. Rubio, and R. M. Berne H797

α-Adrenergic control of oxygen delivery to myocardium during exercise in conscious dogs
G. R. Heyndrickx, P. Muylaert, and J. L. Pannier H805

Reflex cardiovascular changes with veratridine in the conscious dog
K. W. Barron and V. S. Bishop H810

Prolonged myocardial nucleotide depletion after brief ischemia in the open-chest dog
J. L. Swain, R. L. Sabina, P. A. McHale, J. C. Greenfield, Jr., and E. W. Holmes H818

Evidence for persistent activation of cardiac slow channels in low-calcium solutions
J. Linden and G. Brooker H827

Excitation-contraction coupling in neonatal and adult myocardium of cat
J. G. Maylie H834

Flow dependence of norepinephrine extraction by isolated perfused rat lungs
R. A. Roth H844

Regional myocardial radiotracer kinetics in dogs using miniature radiation detectors
M. L. Jacobs, R. D. Okada, W. M. Daggett, B. N. Fowler, H. W. Strauss, G. Geffin, and G. M. Pohost H849

Load dependence of mammalian heart relaxation during cardiac hypertrophy and heart failure
Y. Lecarpentier, J. L. Martin, P. Gastineau, and P. Y. Hatt H855

Response of cerebral blood flow to changes in P_{CO_2} in fetal, newborn, and adult sheep
A. A. Rosenberg, M. D. Jones, Jr., R. J. Traystman, M. A. Simmons, and R. A. Molteni H862

Transmural variation in the relationship between myocardial infarct size and risk area
S. Koyanagi, C. L. Eastham, D. G. Harrison, and M. L. Marcus H867

Estimation of local myocardial stress
R. F. Janz H875

Contractile behavior of rat myocardium after reversal of hypertensive hypertrophy
J. M. Capasso, J. E. Strobeck, A. Malhotra, J. Scheuer, and E. H. Sonnenblick H882

The bloodless rat: a new model for macromolecular transport studies across lung endothelium
E. E. Schneeberger and B. A. Neary H890

Membrane properties of smooth muscle cells in pulmonary arteries of the rat
H. Suzuki and B. M. Twarog H900

Membrane properties of smooth muscle cells in pulmonary hypertensive rats
H. Suzuki and B. M. Twarog H907

SPECIAL COMMUNICATIONS

Denervation of arterial chemoreceptors and baroreceptors in fetal lambs in utero
J. Itskovitz and A. M. Rudolph H916

A planimetric technique for measuring deformation of the carotid sinus region
E. Koushanpour H921

No. 6. JUNE 1982

INVITED REVIEW

Myocardial aging: functional alterations and related cellular mechanisms
E. G. Lakatta and F. C. P. Yin H927

Mechanism of higher oxygen consumption rate: pressure-loaded vs. volume-loaded heart
H. Suga, R. Hisano, S. Hirata, T. Hayashi, and I. Ninomiya H942

Lack of influence of potassium or osmolality on steady-state exercise hyperemia
D. E. Mohrman H949

Reflex cardiovascular depression induced by capsaicin injection into canine liver
J. H. Ashton, G. A. Iwamoto, J. C. Longhurst, and J. H. Mitchell H955

Segmental renal vascular resistance in the spontaneously hypertensive rat
C. H. Hsu, J. H. Slavicek, and T. W. Kurtz H961

Effect of tetrodotoxin on membrane potentials and active tone in vascular smooth muscle
J. H. Lombard, M. J. Burke, S. J. Contney, W. J. Willems, and W. J. Stekiel H967

Nonsympathetic increased inotropic state early after aortic insufficiency
B. Crozatier, D. Caillet, J. L. Chevrier, and P. Y. Hatt H973

Regional myocardial function and metabolism during acute coronary artery occlusion
H. Kanaide, R. Yoshimura, N. Makino, and M. Nakamura H980

Regional blood flows measured in Mongolian gerbil by a modified microsphere method
M. Matsumoto, K. Kimura, A. Fujisawa, T. Matsuyama, T. Asai, O. Uyama, S. Yoneda, and H. Abe H990

Arteriolar vasoconstriction in rat cremaster muscle induced by local heat stress
R. D. Hogan, T. D. Franklin, K. S. Avery, and K. M. Burke H996

Active hepatic capacitance responses to neural and humoral stimuli in dogs
T. D. Bennett, C. L. MacAnespie, and C. F. Rothe H1000

Kallikrein-kinin system in regulation of submandibular gland blood flow
T. B. Ørstavik, O. A. Carretero, and A. G. Scicli H1010

Role of catecholamines in myocardial cell hypertrophy in hypertensive rats
R. J. Tomanek, R. K. Bhatnagar, P. Schmid, and M. J. Brody H1015

Contracture of isolated rat heart cells on anaerobic to aerobic transition
C. Hohl, A. Ansel, R. Altschuld, and G. P. Brierley H1022

DNA synthesis in coronary collaterals after coronary artery occlusion in conscious dog
S. Pasyk, W. Schaper, J. Schaper, K. Pasyk, G. Miskiewicz, and B. Steinseifer H1031

Effects of increased venous pressure on albumin- and IgG-excluded volumes in skin
D. R. Bell and R. J. Mullins H1038

Effects of increased venous pressure on albumin- and IgG-excluded volumes in muscle
D. R. Bell and R. J. Mullins H1044

Response of large hindlimb veins of dog to aortic arch chemoreceptor stimulation
S. L. Britton and D. E. Donald H1050

Effects of left atrial stretch in cardiac-denervated and intact conscious dogs
D. C. Fater, H. D. Schultz, W. D. Sundet, J. S. Mapes, and K. L. Goetz H1056

Reflexes elicited by acute stretch of atrial vs. pulmonary receptors in conscious dogs
H. D. Schultz, D. C. Fater, W. D. Sundet, P. G. Geer, and K. L. Goetz H1065

Effect of ischemia on mechanical function and high-energy phosphates in rabbit myocardium
K. Nishioka and J. M. Jarmakani H1077

Endogenous triacylglycerol metabolism in diabetic heart
D. J. Paulson and M. F. Crass III H1084

Fluid dynamics of the mitral valve: physiological aspects of a mathematical model
D. M. McQueen, C. S. Peskin, and E. L. Yellin H1095

SPECIAL COMMUNICATIONS

Measurement of coronary sinus blood flow by fiber-optic laser Doppler anemometry
D. Kilpatrick, T. Linderer, R. E. Sievers, and J. V. Tyberg H1111

Detection of takeoff potential from intracellular recordings
R. McGillivray and R. W. Wald H1115

Beat-by-beat control of cardiac output in awake dogs with atrioventricular block
C. R. Wyss, T. D. Bennett, and A. M. Scher H1118

Subject Index to Volume 11 H1123
Author Index to Volume 11 H1133
